## Report Description

Based on the mandatory selections of Location (State, Region or National), Baseline, and Baseline Year along with possible Handler Name, ID values, Units and Operating Status, this report will produce the status of facilities in the GPRA Baseline Permits Universe and/or the GPRA Baseline Renewals Universe. If the Legal/Operating Status, Date Range, or Units criteria are selected, then only units that match that criteria will be tested to see if they meet the goal. The effective date will show the actual date of the OP205 or PC205 event. If there is no OP205 or PC205 event, then it will show the actual date of the OP200 or PC200 event. Finally, if there is no OP200 or PC200 event, then it will show the effective date of the op/leg status (Unit). Whichever date is shown will be indicated in parentheses.
